# GLASS RACKS SPECIFICITIES

## EFFICIENT WASHING

Warewashing can be labor intensive. If not well managed, it is likely to hurt your operation's bottom line and add unnecessary frustration. However, labor and efficiency is not the operator's only problem. The quality of your warewashing can directly effect your customers' health and the reputation of your establishment. If an effective system of cleaning and sanitation is not upheld, you may be facing risks on a daily basis that could jeopardize the future of your business.

**Efficient Washing**  
Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying. Long-lasting polypropylene are built to withstand chemicals and high temperatures up to 200°F (93°C).

**Open Wall Design**  
Open profile facilitates superior washing, complete rinsing, and fast drying

**Textured Finish**  
Non-slip textured finish on outside walls reduces scratches to keep racks looking new, improve durability, and provide a secure grip

**4-way Tracking**  
Easy dish machine loading from any side without the need to rotate racks

# SIGNATURE FULL-SIZE

## GLASS RACKS Features

• A complete selection of racks and accessories that provide outstanding strength, adaptability, versatility, and durability. An unbeatable value in today's foodservice operations.

### Open Profile

*Allows top-to-bottom and side-to-side washing, making the glassware cleaner. Allows more air to circulate through the racks and makes faster drying and safer storing.*

### Stackability

*Snap-fit construction shortens assembly time, and stacks all racks tightly.*

### Tight Connection

*Snap-fit extenders will not loosen or rust over time like screws and will not come apart.*

### Convenient Handle

*The handles on all four sides of the racks are convenient for safe delivery. Textured surface and convenient handles can avoid scratches when carried.*

### Guide Cards Groove

*Different coloured cards can be inserted to facilitate identifying storing items and improve work efficiency.*

# Glass Racks

## Glass Rack Sizing Guide Instruction

- Place glass upside down on top of the middle circle of the sizing guide, center of the glass should be over the center of the guide.
- Look down on the base of the glass.
- Note the smallest square on the guide where the largest outside diameter of the glass lines up completely within the square without touching it. That is the number of compartments our rack needs to have.
- Place lip of glass against the base line of the vertical guide on the right-hand side of the page with the base/foot of the glass pointing straight up towards the top of the page.
- While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide. The next line above the base/foot on the guide indicates the number of extenders your rack will require.
- Glasses with a maximum height exceeding 242mm will need more than five extenders. Each extender adds approximately 40mm of additional height to the inside compartment of the rack.

## CLOSED GLASS RACKS SPECIFICITIES

### EFFICIENT WASHING

Ideal for storage and transportation to events, the rack's closed sides provide optimal protection against dust, bacteria, and insects. These convenient closed sides and their removable solid lids (sold separately) provide your employees with the opportunity to use the glasses between events without tedious re-cleaning. Unlike glassware stored in open side shelves, the closed design prevents clean glasses from getting dirty. Chemical, impact, and heat resistant for durability.

#### Efficient Washing

Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying. Long-lasting polypropylene are built to withstand chemicals and high temperatures up to 200°F (93°C).

#### Sanitary Storage

The closed outer wall can prevent fingers and contaminants entering.

#### Textured Finish

Non-slip textured finish on outside walls reduces scratches to keep racks looking new, improve durability, and provide a secure grip.

#### 4-way Tracking

Easy dish machine loading from any side without the need to rotate racks.

## Glass Racks

### GLASS RACKS Features

# Square Food Storage Container

## SPECIFICITIES

- Square shape maximizes storage space up to 25% better than round containers.
- Containers are constructed of virtually-unbreakable polycarbonate for superior longevity.
- Wide handles provide stability and have holes to facilitate fast drying.
- Included lids fit firmly on containers to keep all contaminants out and food fresh.

**marked with contents**  
Contents and Date Indicators on Lid  
Spare space of the lid can be marked with contents and date indicators, convenient to keep the quality and freshness of food.

**Textured Lid**  
Made of polyethylene;  
Non-slip textured surface is resistant to scratches and helps more stable stacking.

**Stable Handles**  
Wide and Easy Handles  
Wide molded-in and textured finish handles in larger sizes ease carrying. Drain holes in handles allow for quicker drying. Wide cove handles save effort when transported and do not waste space.

**Stackable lugs**  
Corner stackable lugs add strength rigidity and prevent jamming when stacked.

**Date indicator**  
Date indicators on all four sides for easy recognition.

**Textured Finish**  
All corners, edges, handles and the bottom are designed with textured finish. It can reduce scratches, increase service time and provide safe use.

## Easy to adjust and install

It's easy to adjust and install.  
With different sizes (3 heights, 4 widths, 6 lengths),  
space utilization is highly increased.  
The nets can be adjusted up or down by 100  
millimeters with disassembly.  
Shelves can be built to U-shape units with corner  
connectors.

## Absolutely firm, durable and stable

Made of a steel core and polypropylene.  
Inner steel provides high intensity and durability.  
Exterior PP is anti-corrosion and break-resistant  
Post connectors provide exceptional stabilization.

## Never rusty

Can be used anywhere, no matter moist or dry  
weldless, never rusty.  
Resists corrosion by brine or marine air.  
Suitable for coolers and freezers, available  
under -38 C.

# High Density Mobile Shelving Storage System

- Maximum storage capacity can be achieved by forming a storage channel in all available space.
- The mobile shelving storage system is composed of the basic units on the raised track, with high density movable shelves in the middle.
- Tracks are easy to be installed without drilling or bonding.

**40%**  
Increase Storage Capacity

A: Stationary Units  
B: Mobile Units  
C: Track  
D: Active Aisle

The track conveniently connects to the bottom of stationary shelving, no bolts or drilling into the floor are required. Using the connecting bolt to fasten the track.

Raised track provides a smooth surface for mobile units. It ensures dirt will not get trapped, and it is easy to clean. Shelves unit with heavy weight lands can roll smoothly on the track.

Grooved casters roll easily on raised track, which can be used on any surface. The caster with a bumper can provide protection.

# Composite Shelving

## JIWINS Composite Shelving

Can be used in multi environment from -38°C to 88°C

Made of innovative high-strength composite materials so each layer can bear up to 200kg.

It is comfortable to use because of its smooth, easy-to-clean surface and its post notch embedded.

The shelf plate is added with the antibacterial agent of Microban brand in America, which can effectively inhibit the breeding of bacteria and ensure the safety and hygiene of stored products.

Buckle design makes installation and adjustment easier, and with good rust resistance. Products can withstand the influence by water, chemicals and other liquids. It can be used in the place under low temperature of minus 38 degrees and wet kitchen.

## Epoxy Wire Shelving

- Providing the ideal storage solution: epoxy mesh multiple sizes available.
- Open wire construction allows a free circulation of air.
- Open design allows greater visibility of stored items which is convenient to check.
- Different shapes are available based on different circumstances.
- Adjustable to various heights.
- Each shelf supports up to 250kgs, without casters.
